CONSIGLI PER LA MANUTENZIONE DEL PRODOTTO

1. Non utilizzare strumenti per la pulizia a vapore, detergenti caustici o aggressivi o che possano corrodere le componenti in plastica. Non utilizzare solventi a base di acetone, trementina o candeggina.
2. Non utilizzare detergenti che possono corrodere l'alluminio.
3. Non utilizzare paste per la pulizia del vetro o panni in microfibra che possano danneggiare il rivestimento dello stesso.
4. Per evitare l'accumulo di calcare consigliamo, dopo ogni utilizzo, di rimuovere l'acqua utilizzando una normale spatola tergivetro o un panno morbido.
5. Dopo l'utilizzo della doccia risciacquare con cura da ogni residuo di saponi liquidi, shampoo, cosmetici o similari.
